Summary

Full Stack Developer skilled in React.js, Node.js, Django, and REST APIs with hands-on experience building scalable web applications. Proficient in frontend development, backend integration, authentication systems, and database management. Passionate about building responsive and user-focused applications.

Skills

Programming Languages: JavaScript (ES6+), Python, C++

Frontend: React.js, Redux, HTML5, CSS3

Backend: Node.js, Express.js, Django, Django REST Framework, RESTful API Development, Authentication & Authorization

Database: MongoDB, MySQL, SQLite

Tools: Git, GitHub, Postman, Docker, AWS (Basics)

Experience

Web Development Intern

Sep 2025 – Dec 2025

ITVedant Education (Remote)

Tools Used: Django, React.js, Python, Git

- Built and integrated REST APIs with React.js components enabling dynamic data flow, authentication workflows, and end-to-end full-stack feature delivery.
- Managed relational databases using Django ORM, optimised queries, and resolved UI performance issues across modules.

Projects

Url-Shortner Web App | Node.js · Express.js · MongoDB · React

Feb 2026 – March 2026

- Built a full-stack URL shortening service using Node.js, Express, and MongoDB with features like custom aliases, JWT authentication, link expiry (1-365 days), and duplicate URL reuse to avoid redundant records.
- Developed REST APIs with real-time click tracking on every redirect and a 410 response for expired links; integrated React frontend for seamless link management.
- **GitHub:** <https://github.com/rati-yadav/url-shortener>

E-Commerce Web App | React.js · Django · REST APIs · MySQL

July 2025 – Aug 2025

- Developed a full-stack e-commerce platform with product listing, cart, and user authentication using React.js and Django REST APIs.
- Designed MySQL database models for products, users, and orders; integrated React frontend for dynamic rendering and responsive UI.
- **GitHub:** <https://github.com/rati-yadav/quickcart>

Online Restaurant Management System | Django · JavaScript · REST APIs · SQLite

March 2025 – May 2025

- Developed a full-stack restaurant management system with secure authentication, online ordering, cart functionality, order history, and integrated payment gateway features.
- Implemented REST APIs and responsive UI for real-time order tracking, menu management, and seamless customer experience using Django and JavaScript.
- **GitHub:** <https://github.com/rati-yadav/RestoHub-Project>

Awards & Certifications

- **Master Django Web Development: Hands-On Projects – Alison (2026):** Course Completed.
- **Web Development Certificate – Coursera (2024):** Completed Web Development course covering HTML, CSS, JavaScript

Education

Bachelor of Technology (CSE)

Chhatrapati Shivaji Maharaj University, Panvel

Graduated: 2026

CGPA: 8.7
